Kunaal Shivakumar

#454, 12th A Main, 10th A Cross, Yelahanka, New Town, Bengaluru- 560064, Karnataka, India
Contact No: +91 9141223833; Email: knsk0035@gmail.com

ACADEMIC QUALIFICATION

Bachelor of Engineering in **Computer Science**, BMS Institute of Technology and Management (BMSIT&M), Bengaluru; Visvesvaraya Technological University (VTU); CGPA: 8.47/10; Jun'24

WORK EXPERIENCE

Software Developer in Test (SDET), Q2 Software, Bengaluru ***Aug'26 – Present***

- Improved Python-Selenium automation frameworks and integrated new automation workflows into CI/CD for enterprise financial applications
- Developed Claude Skills and Agents workflows to analyze repositories, existing test cases, and automation patterns to identify reusable automation coverage
- Automated the test contribution workflow from repository analysis and implementation through execution validation, failure handling, and pull request creation
- Validated AI-generated automated tests in headed and headless modes for stability, correctness, and CI compatibility
- Managed Jenkins CI/CD automation and regression execution to shorten feedback cycles and improve release validation

Associate SDET, Q2 Software, Bengaluru ***Aug'24 – Jul'26***

- Designed and maintained Python-Selenium automation suites using unittest for enterprise financial applications, automating 100+ critical regression test cases
- Developed API automation and smoke test suites in Postman, achieving 95%+ endpoint coverage for backend services
- Integrated automated regression suites with Jenkins CI/CD pipelines for continuous testing and faster feedback on code changes
- Developed a Jenkins Reporting Agent using Claude Skills and Agents for 26 Financial Institution pipelines, automating failure reports, fix recommendations, and quality trend analysis

ACADEMIC PROJECTS

Title: Bone Tumour Detection and Classification Using Deep Learning Based on Computed Tomography
Duration: Aug– May'24
Team size: 4
Summary: Developed a deep learning system for automated bone tumour detection from CT scans using CNN, VGG-16 and DenseNet121. Fine-tuned the models on 6,000 CT images using preprocessing and augmentation; DenseNet121 achieved 91.3% accuracy and an F1-score of 0.89. Deployed the model as a Flask web app for real-time classification.
Individual role: Handled preprocessing and model training using TensorFlow/Keras, fine-tuned VGG-16 and DenseNet121, and built the Flask frontend for real-time tumour classification.

Title: Online Tourism Management System
Duration: Nov'22 – Jan'23
Team size: 2
Description: Designed and developed a dynamic tourism website using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL. Implemented secure authentication, tour package listings, bookings, and an admin dashboard with CRUD operations.
Individual Role: Built the responsive frontend using HTML, CSS, JavaScript, and Bootstrap; designed the MySQL schema and optimized SQL queries for efficient CRUD operations.

PUBLICATIONS

- *Kunaal Shivakumar, co-author, "Bone Tumour Detection and Classification Using Deep Learning Based on Computed Tomography,"* published in IEEE Xplore Digital Library (DOI: 10.1109/NMITCON62075.2024.10699180), Oct'24
- *Kunaal Shivakumar, co-author, "Decoding DeFi: A Comparative Analysis of Popular and High-Traffic Decentralized Finance Applications," published in IEEE Xplore Digital Library, 2025*

PRESENTATIONS

- Presented a paper on 'Decoding DeFi: A Comparative Analysis of Popular and High-Traffic Decentralized Finance Applications' at the International Conference on Networks, Multimedia and Information Technology (NMITCON-2025), Bengaluru, Aug'25
- Presented a paper on 'Bone Tumour Detection and Classification Using Deep Learning Based on Computed Tomography' at the International Conference on Networks, Multimedia and Information Technology (NMITCON-2024), Bengaluru, Aug'24

CERTIFICATIONS

- Claude with the Anthropic API, Anthropic, 2026
- Introduction to Prompt Engineering for Generative AI, LinkedIn Learning, 2026
- Python Automation and Testing in LinkedIn Learning, Oct'24
- Jenkins Essential Training in LinkedIn Learning, Jun'24
- Postman Essential Training in LinkedIn Learning, May'24
- Python Essential Training in LinkedIn Learning, Apr'24

TECHNICAL SKILLS

- Languages: C, Java, Python
- Web Technologies: HTML5, CSS3, PHP, JavaScript, Flask
- Database: MySQL, Microsoft SQL Server
- Others: Selenium, Jenkins, Postman, BrowserStack, TensorFlow, Claude Skills & Agents

EXTRACURRICULAR ACTIVITIES

- Achieved 4th position in Visvesvaraya Technological University State-Level Inter-Collegiate Cricket Tournament, Feb'24
- Won Visvesvaraya Technological University North Zone Inter-Collegiate Cricket Tournament, Jan'24
- Served as a Student Placement Co-ordinator coordinating campus placement activities (recruitment drives, pre-placement sessions, interviews) and assisting students with resume development and mock interviews, Mar'23 – Jun'24
- Organised and managed a wide range of inter-college sports events and tournaments, overseeing logistics, scheduling, and event execution while collaborating with faculty, sports committees, and external institutions as a Student Sports Co-ordinator, Jun'23
